SINAGEM

## Real-time Collaborative Incident Management Network

Overview

SINAGEM is a first-of-its-kind collaborative incident management network. Through unprecedented public-private-healthcare sector connectivity, SINAGEM breaks down geographical, jurisdictional and communication barriers. Members gain the assurance they need to make precise decisions faster, leading to the proactive coordinated response that is absolutely vital to save lives and bounce forward.

Key Benefits

- Solve problems together that cannot be solved in isolation
- Make precise decisions with speed, accuracy and confidence
- Obtain and deploy resources quickly
- Leverage shared data
- Proactively coordinate response
- Eliminate manual processes
- Ensure systematic resilience and bounce forward

Use Case

- Cross-sector collaboration
- Situational awareness
- Critical incident response

SINAGEM

## Break Down Barriers to Prepare, Connect and Respond

SINAGEM facilitates communication and collabora-tion across public, private and healthcare sectors, as well as geographical and jurisdictional borders, in a single real-time dashboard.

Powered by critical data sharing, SINAGEM provides a comprehensive resource hub and dynamic communication for proactive coordinated response, which is essential to effective critical event management.
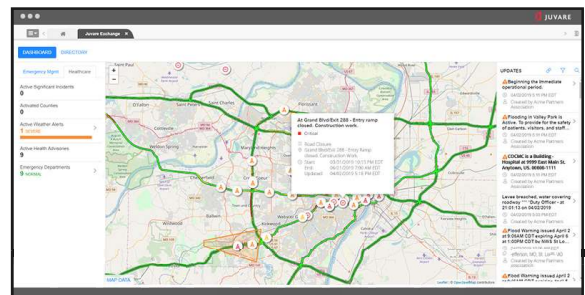

Prepare for the Unexpected

SINAGEM creates the most comprehensive, accurate and consistent operating picture possible with an enhanced dashboard, data visualization and mapping, aggregated third-party data and relevant analytics and insights.

## Connect with Shared Critical Data

Access and share critical data securely, selectively, and collectively via a customizable dashboard. Share information with the entire JUVARE COMMUNITY™ or with specific, selected participants.

Respond Quickly and Efficiently

Make more informed and precise decisions. A comprehensive resource hub creates greater awareness of available resourc-es, accelerates mutual aid and allows automated requests.

Publicize important data, resource availability, open/close retail status. Access mutual aid and use automated request to obtain needed supplies and resources more easily.

Protect People, Property, and Brands

Vastly improve critical event planning, response, and recovery capabilities with the unsurpassed connectivity and collaboration offered by SINAGEM.
